

The University of Chicago, Department of Pediatrics, Section of Neurology would like to share with you some exciting opportunities for growth and advancements. Our Pediatric Neurology team is growing and we are looking for physicians with the highest standards of excellence in the following areas.

1. Pediatric Neuromuscular Program
2. Pediatric Neurology Neurogenetics Program
3. Pediatric Neurology

The Pediatric Neurology team at the University of Chicago Medicine Comer Children's Hospital brings patients the latest in neurological research and treatments while delivering personalized, compassionate care to each family. We offer comprehensive services from diagnosis of epilepsy to treatments for Neurofibromatosis and Tuberous Sclerosis.

At Comer Children's Hospital, our patients have access to the most advanced treatment options, which stem from groundbreaking technology and participation in national consortiums focused on specific diseases. Our dedication to the study of neurology extends to collaborations and consultations we provide to the Neurosurgery, Radiology, and Pathology departments here at the University of Chicago
